In the space provided, please give a brief description of your background, qualifications, skills, etc. that have a bearing on your candidacy, and why you would like to be involved in the Prescott Parents Board.

I live in the neighborhood and have two daughters in 4th and 7th grades. I currently serve Prescott in several capacities. I created the Kiss n' Go Program which facilitates morning drop off for students. By recruiting a core group of daily volunteers, the program provides safe passage for our students and helps ease traffic congestion. I also manage operations and successfully implemented our first ever fund-raising software program, GiveSmart, which has increased and exceeded our fundraising goals year after year.

For the last almost 2 years, I have served as the LSC secretary. 2021 was especially challenging as we lobbied CPS for increased student capacity which positively impacted our school budget. I also serve on a separate committee which collaborated with architects and engineers to craft a proposal for a new gymnasium, additional classrooms and restroom facilities with the end goal of enhancing the school experience for our students, facility, and families.

I'm passionate not only in my daughter's education and well-being, but also in the future of Prescott.

I'm a team player, take challenges head on, and look forward to continuing to serve Prescott and it's supporting families.
